Earth Home
Wi-Fi Switch

Comfort Control Convenience

You have control over every aspect of life,
now have control over lights and other
appliances as well.

Control

Have control over your appliances from anywhere using Earth Home Wi-Fi Switches. Turn on your air conditioner even before you reach home, turn off the lights of your house from anywhere, in case you forget to do so.

Scheduling

Schedule your lights for a worry free day. Turn off the lamp at sunrise or synchronize your hall light with sunset. Schedule geyser for winter morning shower.

Safe Home

Create an illusion of being at home when actually you are not. In one click, randomize your lights to make it appear like you are at home. With a safe and protected home, now you can enjoy your vacations.

Specification / Requirement

- Android 4.4 or higher
- Neutral wire required
- Replaces single pole switch
- No additional wiring required
- Availabale upto 12 loads, for current rating of 5A, 15A and 32A

Earth Home
IR-Emote

Create a perfect ambience

I am evolving, my surroundings are evolving,
my experiences are evolving & it is so damn
beautiful.

No Remote

No need to waste time looking around for remotes, your phone can do it all. With Earth Home app, control TV, AC, music system in a hassle-free manner.

Hassle free life

It effortlessly replicates all the controls of all of your Infrared remotes and enables your smart phone to do the same job.

Perfect ambience

With IR-Emote enabled homes, you can create an ambience of your choice and taste. Pre-set the temperature of your room to ensure your comfort when you arrive home. Set the controls to suit your requirements smartly with ultra ease.

Specification

5 - 6V DC supply

Connects upto 6 IR based appliances

IR range : 40 feet

Earth Home

Krayons Highlights

- Works with Earth Home Wi-Fi Module
- Fits with any standard wall panel
- Tested for 1 lakh clicks
- Ambient lighting with dimmer option
- Makeover/renovation with minimal cost
- Acoustic/tactile feedback

Earth Home

Monitor & Save Energy

Present a cleaner and greener world to the GenNxt. Upgrade yourself with realtime monitoring of power consumption. Mind you! Saving money is just a biproduct of it.

Experience
Earth Home

Experiencing Earth Home is so much different from our ordinary homes. Earth Home makes our home smart and stay effortless.

I operate all my lights, fans, A/cs and many more from my cozy bed, rolling chair at my office or while I am on a splendid vacation in Goa.

I do not even need remotes to command my Tv, A/C or my music system. Not only that, I save energy by monitoring the energy consumption, which is at my disposal. You too can experience the same.

“Getting a smart home is like getting a smart phone. Life just gets so much easier”
